PERSONAL PROJECTS

- MOVIE APP

ReactJs, Redux, Styled Components

It is a react application where the user can search for movies or Tv series, they can watch the trailer, and read all kind of information about it. They can make searches based on genres and they can sort them.

- BUDGETY

ReactJs, Redux, Styled Components, Firebase

A react application where you can add your incomes and expenses to keep track of your transactions. I've used the Firebase SDK for authentication and firestore for saving the user data.

- WEATHER APP

HTML, JavaScript, SCSS

The application was built by using MVC pattern. It shows the current weather, and forecast based on the users location, and it is also possible to search for other cities.
